

Technical Assistance to develop a Traffic Management Unit in Mumbai

MVA in India

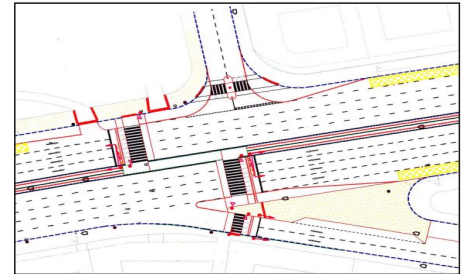

MVA was commissioned by the World Bank to provide Technical Assistance in order to implement a Traffic Management Unit within the Municipal Corporation of Greater Mumbai.

The project identified traffic management improvement measures and also included capacity building and training of staff members and the project prioritization identification and design.

- ▶ Development of car parking plans
- ▶ Institutional Review
- ▶ Preparation of design standards & guidelines
- ▶ Organized training courses
- ▶ Capacity building and training of counterpart staff

During the 2.5 year project, MVA developed area traffic planning, junction improvements and parking studies. Training was provided to city staff at all levels, via both formal classes and on-the-job training.

Scope of Work included:

- ▶ Traffic engineering and safety appraisal
- ▶ Traffic Management Measures
