

Manila Northern Intermodal Transport Terminal FS

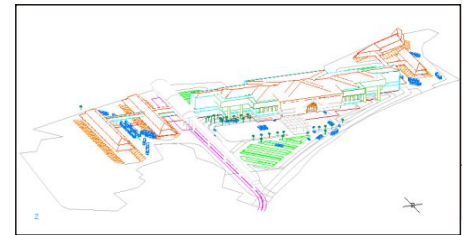

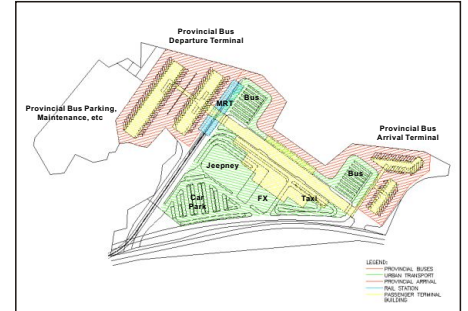

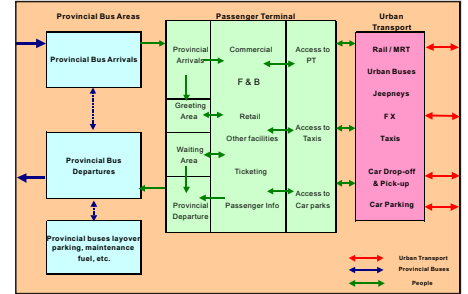

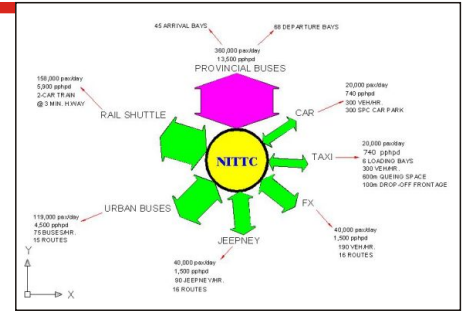

The Northern Intermodal Transport Terminal was a proposal under the BOT law in The Philippines based on an unsolicited bid basis. MVA was commissioned to conduct the feasibility study for the Intermodal Terminal complex for Provincial Buses, catering up to 100 million passengers per year.

Scope of Work included:

- ▶ Demand analysis
- ▶ Demand Forecasting
- ▶ Transport Masterplan
- ▶ Designed public transport interchanges
- ▶ Designed Terminal building for public transport
- ▶ Arranged access and circulation routes
- ▶ Recommended plan and lay out for rail connections/ intermodal transfers.

MVA made a number of presentations of the findings and recommendations to assist in promoting the project through the various Government departments as required under the BOT system.
